www.DSO50.com.sg

DSO has come a long way since its humble beginnings in 1972, growing from a three-man team to a 2,000-strong defence R&D organisation. Over the past 50 years, DSO has remained steadfast in its mission to provide cutting-edge solutions to enhance Singapore's defence and national security capabilities.

The DSO50 Commemorative Website marks DSO's Golden Jubilee and is a symbol of our pride in making a difference to the nation. It is a rare opportunity to dig into DSO's role as a strategic R&D partner to MINDEF and the SAF, and a national resource.

From interviews with our leaders to the untold stories of our capability build-up, we invite you to discover the DSO spirit — People, Passion, and Innovation — that has kept us going for 50 years and will propel us beyond.

01 THE DSO STORY

Over the past 50 years, DSO has grown and matured into an established national institution. Go on a journey and relive the DSO story through our key milestones across five decades, and delve deeper into the interesting insights from our leaders that have shaped the foundation and future of DSO.

02 PUSHING THE BOUNDARIES

In the relentless pursuit of our mission, DSO has built up deep technical expertise and developed indigenous capabilities for the nation. Hear from our pioneers and people on how they pushed the boundaries with a dare-to-dream and dare-to-do spirit that seeded the depth and breadth of expertise that DSO possesses today.

03 BEYOND DEFENCE

DSO's mission is to develop technological surprises to sharpen the cutting edge of Singapore's defence and national security. Over the past 20 years, DSO has supported Whole-of-Government efforts to keep Singapore safe. Uncover how we have harnessed our expertise to solve national crises and overcome emerging threats.

04 TOWARDS THE NEXT FRONTIER

DSO remains steadfast in its mission to ensure that the SAF is a modern and technologically advanced fighting force. We explore emerging areas and exploit disruptive technologies to ensure DSO's and the SAF's future readiness. Join us on the cutting edge of R&D as we push the envelope to develop the game-changing technologies of tomorrow.

05 STRENGTHENING OUR NETWORK & PARTNERSHIPS

At DSO, we work closely with strategic partners to continually strengthen our R&D competencies and expand our research capacity. We collaborate with local and international universities and research institutes to conduct upstream research, and we engage our industry partners to transition R&D outcomes to full-scale development.

06 THE DSO SPIRIT

People are our greatest asset. Our strength does not lie in numbers, but in our unique teamDSO culture nurtured over the past 50 years. Discover and experience the DSO spirit — driven by our belief in People, Passion, and Innovation — that has inspired us and kept us going in the relentless pursuit of our critical mission.
