

SINGAPORE AMAZING FLYING MACHINE COMPETITION

I Want To Build An Incredible Flying Machine!

Well, look no further. The Singapore Amazing Flying Machine Competition is Singapore's largest flying machine competition. It is the perfect opportunity to pit your engineering skills in various categories and build the most awe-inspiring flying machine.

Sounds Challenging. Am I Ready?

Fret not! From paper planes to fully autonomous flying machines, there are different categories and challenges to showcase your talent according to your proficiency level. Form your teams within your schools or even across institutions, and our experienced engineers will impart their knowledge to guide you along the way. It's more than just a competition. It's a learning journey.

Tell Me More About The Categories!

- A. Paper Plane - Primary Schools
- B. Unpowered Glider - Secondary Schools and Integrated Programme
- C. Radio Control Flight - Secondary Schools, Integrated Programme, Junior Colleges and Institute of Technical Education
- D. Semi-autonomous/Autonomous - Polytechnics and Universities
- E. Unconventional - Open Category

Can't Wait To Start. Can I Apply?
